"One of the **Top Finishing Shops** in North America," for the sixth consecutive year!"

— Products Finishing Magazine

Why Alumi-Guard®

Made in America, Alumi-Guard Brand has been providing innovative, high-quality aluminum fencing, railing, and gate systems for over a decade. Alumi-Guard has established itself as an innovator in quality and design; providing a large selection of low-maintenance fence, railing, and gates that are manufactured to withstand some of the harshest conditions.

Our commitment to quality means we don't just follow industry standards — we raise the bar higher by performing additional testing.

Protecting what you love

The QuickShip Collection Features

The specific styles and designs in The QuickShip Collection are the top selling and most popular in our portfolio of products. The Ascot, Canterbury and Belmont styles are rackable and stocked for quick shipment. The QuickShip Collection only includes black fencing as an option. Other colors, heights and styles are available for special order only.

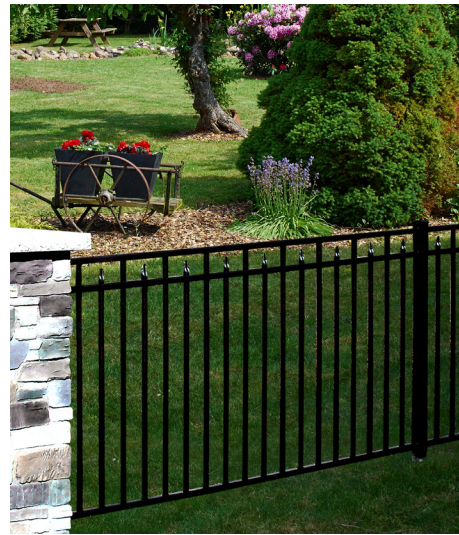

The QuickShip Collection includes 1 1/8" x 1" channel, 5/8" x 5/8" picket, 6' wide sections, and 2" or 2 1/2" posts. Gates come in 4' and 5' wide, and are available with a square top Arch or with an arched top.

Packaged, palletized, and bundled for easy storage; QuickShip products are also available in full unit and full truck load quantities.

- Matching entry and walk gates are available to complement each fence style
- Not all architectural coaters meet the standards set by AkzoNobel — Alumi-Guard meets the stringent requirements as an Approved Applicator that surpasses 10,000 hours on the Salt Spray Test (ASTM B-117), which is three times greater than the AAMA 2604-20 specifications
- Providing exemplary service — Professional Engineering, Architectural Services and Customer Service Departments
- Durable, scratch resistant powder-coated aluminum fence and gates which are naturally corrosion resistant and provide long product life-cycles with low maintenance
- Our Aluminum fencing meets or exceeds ASTM F2957-13 and our welded U-Frame gates are the strongest in the industry
- An Eco-Conscious Environmentally Aware Company — 100% aluminum, paper, wood and plastic scrap is recycled, 90% evaporant coolant water recycled, less than 1% of powder waste annually, and lean manufacturing facility practices
- Our products are backed with a transferable limited lifetime warranty on all aluminum fencing
